

About this Race

Come run along the scenic paths of Ohio's oldest continuous county fair and through picturesque Burton Village. The Great Geauga County Fair 4-H 5K Race and Fun Run will be held during The 199th Great Geauga County Fair on September 5, 2021.

This race helps support multiple clubs in the county: Geauga Engineering And Robotics (GEAR), Geauga Prime Time, Breeders & Feeders, Plantmasters, and Geauga Caprine Kids. These clubs have members with diverse projects, from market beef to photography. Across the county, our 4-H clubs are teaching the leaders of tomorrow and equipping them with life skills to face the challenges of the future.

Your support is an investment in the future of Geauga County and of Ohio. Your support will help these clubs continue to teach their members skills to excel in the future and will provide them with unique opportunities. We thank you for considering supporting us, and we hope you will come see our members' projects at The Great Geauga County Fair.

Sponsorship Levels

Club Level Sponsor - \$100

- Name on race shirt
- Mention on social media

Bronze Level Sponsor - \$250

- Logo on race T-shirts
- Mention on social media
- Name on race banner at start/finish lines

Silver Level Sponsor - \$500

- Highlighted on social media
- Logo on race T-shirts
- Logo on race banners at start/finish lines
- On-site display table
- Opportunity to provide promotional materials in race packet

Presenting Sponsor Level - \$1,000

- Exclusive race banner at top of start/finish lines
- Multiple mentions at event
- Highlighted on social media
- Logo on race T-shirts with premium placement on sleeve
- Logo on race banner at start/finish line
- Opportunity to provide promotional materials in race packet
- On-site display table

Sponsorship is for all participating 4-H groups or may be dedicated to one specific group.

No endorsement of the product or service by 4-H, the U.S. government, or any of its organizational units or employees is implied or intended. Profit from this effort will be used to support 4-H educational programs.

Geauga Engineering and Robotics (GEAR)

Geauga Engineering And Robotics is a 4-H club pursuing projects in engineering, computer programming, electricity, and robotics. Our members begin by learning the fundamentals of electricity, then the physics behind modern technology, and eventually enter the realm of programming, the Internet of Things, and engineering. In the past, we have had NASA engineers speak to the club, have gone to the observatory to view astronomical phenomena, and have visited various museums to learn from humanity's great engineers. GEAR participates in the National Robotics Challenge and has sent many members to the Ohio State Fair to represent Geauga County. We foster a lifetime love of learning, and our members have gone on to study STEM subjects at the university level. Funds from this race would help support buying updated equipment so our members can learn state-of-the-art techniques.

Geauga Prime Time

We are a 4-H group that has 21 active members this year. The kids in the group range from 5-18 years of age. The kids in our club take Beef projects, swine projects, poultry (turkey, duck, and chicken) projects, and, this year, we have one taking a sheep project. We also have our Clover Buds program.

Breeders and Feeders

Since its inception in 1971, Breeders and Feeders 4-H Club members have worked to make the "Best Better" in Geauga County. Breeders and Feeders 4-H Club has its roots in breeding commercial beef cattle for market. Today, our club truly has something for everyone. Members have the opportunity to take such projects as Beef, Pigs, Poultry, and Rabbits to the Fair. In addition, our members have taken sheep, goats and miscellaneous projects such as photography and veterinary science to the Fair. During our meetings, members learn about raising quality market projects aimed at providing a good product to their buyers. Members are also involved in many community service projects such as making blankets for veterans, Geauga County Hunger Task Force, decorating placemats for Geauga County Department on Aging and collecting donations for Rescue Village. Come see us at the 2021 Great Geauga County Fair!

Geauga Caprine Kids

Geauga Caprine Kids is a 4-H club with members that participate in a variety of different animal projects. Our members vary in age, allowing the older members to work with the younger generation to help them learn important life skills. Through fun activities and educational opportunities, kids are engaged and excited to learn about animal husbandry in addition to crucial life skills. Most of the club members show animals at the fair including: poultry, hogs, goats, sheep, rabbits, to name a few. All of the members participate in the fair and enjoy showing what they have worked hard on all year and the experiences that come along with it. We also enjoy volunteering throughout the community. We participate in various community service activities including: helping make Easter eggs for daycares, food drives, and making blankets for the cancer patients at Geauga Hospital.

Plantmasters

Plantmasters has been in existence for over 20 years. We study agriculture, botany, horticulture, environmental science and gardening. Each year we focus on special subjects. This year we are studying pines and pumpkins and continuing our work on phenology. Our meetings always include an educational component and laboratory. Almost every month members have the opportunity to grow new plants using propagules given to members by the advisers. About half the members chose to also take on extra 4-H projects including Ohio Birds, Investigating Insects, Exploring Outdoors, Exploring Ponds, Cake Decorating and others. In the past Plantmasters took trips. Our outings include a mushroom farm, bog, Stan Hywet Hall, the Cleveland Art Museum and the Natural History Museum. The money we earn from the 5K would be used to fund future trips, including to Kelley's Island to see the Glacial Grooves. Thank you for this opportunity.
